## Hydro-drive Sod Cutters

Whether you are relocating sod, expanding a flower bed or establishing a new planting area, the new Classen Hydro-drive Sod Cutter guarantees clean, consistent cutting each and every time. The cutting blade makes 20 cutting strokes—each stroke up to 50 percent longer than the competition—per second, yielding cleaner, smoother results. Add a hydrostatic drive with power forward and reverse, and you'll be cutting with speed without sacrificing precision.

Power forward and reverse for easy maneuvering, loading and unloading.

Integrated throttle/clutch control on handle, which goes idle and stops machine movement when released.

Hydro vibration dampening system reduces machine vibration up to 40%.

Interchangeable cut widths, 12", 18", 20" or 24", with optional blade assemblies.

Adjustable cutting depth up to 2.5" deep.

Infinitely variable transport speeds of up to 4.7 mph.

Front knobby drive wheels ensure better traction and eliminate dirt build-up.

Cutting blade makes 20 cutting strokes per second, 1,200 per minute. 1 $\frac{3}{8}$ " cutting stroke is up to 50% longer than competitive models.

PRODUCT NUMBER	SCHV-12 / 5.5	SCHV-18 / 5.5	SCHV-18 / 8.0	SCHV-20 / 8.0	SCHV-24 / 8.0
ENGINE	Honda®GX160		Honda®GX240		
DIMENSIONS	41"H x 25.5"W x 57"L				
CUTTING DIMENSIONS	12"W x 2.5"D	18"W x 2.5"D		20"W x 2.5"D	24"W x 2.5"D
DRIVE WHEELS	2				
WEIGHT	328 lbs.	351 lbs.	376 lbs.	377 lbs.	379 lbs.
